EXPERIENCE

August, 2023 - Present

rêu collective - Co-Founder

A youth collective amplifying marginalised voices on climate change

- Conducted research on climate anxiety in Vietnamese youths
- Designed a nature inspiring and playful brand identity
- Managing an ongoing project to amplify Vietnamese youth's voices through sense-making and imagining workshop series

May - June, 2023

Combating Illegal Wildlife Trade Training & Internship - WildAct, Vietnam

A local NGO focusing on wildlife conservation

- Participated in a 2-week training on wildlife conservation and prevention of illegal wildlife hunting in Vietnam
- Designed and facilitated online workshop activities for local teenagers to explore the future of migratory birds in Vietnam
- Conducted research and analysis on illegal wildlife trade activities on social media

May, 2022 - November, 2022

UX Designer - frog, Finland

A global creative consultancy

- Advocated and empowered colleagues to infuse sustainable design practices and methods into projects.
- Audited and assessed current UI and proposed UX directions and a new accessible and consistent design system for a global payment service company.
- Evaluated user experience of a peer-to-peer marketplace application for used phones and provided strategic recommendations and directions for fixing critical issues.

September, 2019 - April, 2022

UX/UI Designer - Dream Broker, Finland

A SAAS company providing video communication solutions.

- Led the R&D design team in the end-to-end design process to create a simple, consistent and accessible video-on-demand platform and live video solutions.
- Collaborated with multiple stakeholders and functions to drive user-centered design in the product development processes.
- Built a streamlined design process and strengthened the design community with a cross-function design team.
